## ~~NO~~ SUCCESS STORY

I was seeing a Doctor for a bladder/kidney infection. I'd been on 3 <sup>prescriptions</sup> 10-day antibiotics and was sent to a specialist <sup>in June 2nd 2009</sup> as I wasn't cleared up. <sup>no medications</sup> I came here for a sciatic problem (Dr Olson recommended to me by a friend) Dr Dennis did traps & a very good exam & showed me on the trap different areas of my back that could cause problems - One of them being bladder/kidney problems. I have not mentioned this at all before this. Today I saw the urology specialist and I'm fully cured. I've been coming to the Chiro 10 times & personally feel I'll have no more problems with that again. Thank you Dr Dennis Olson!

When I first came to Olson Bros Chiropractic I was having 3 migraines a week. After the initial treatment over the course of only a few months we worked all those migraines to only 2 a month!

I look forward to my continuous care here to help my migraines to become increasingly further apart. Not only for that, but my back pain as well.

I would also like to commend the wonderful staff for there hard work & willingness to work with my schedual!

Thanks  
Molly

I started coming to Olson Bros. Chiropractic about two month ago with neck pain. Not only did that go away, my many headaches also diminished. I use to get a headache almost everyday and now we have only had two since starting treatment!

Thanks,  
maureen

Hi, I'm Millie and for the first time in a very long time I felt like going for a walk and I didn't have any back pain. I haven't been pain-free since Nov. 1992.

I only started going to Olson Bros in March! I have been impressed w the plan I'm on. Thank you Doc's! -😊-

## ~~S~~SUCCESS STORY

I would like to tell you a short story:

I sustained a back injury that fractured T-5 T-6 and multiple herniated disks. The orthopedic Drs healed the fractures and their idea for the disks were to live with it. After two years my personal Dr. thought maybe a chiropractor might help. Dr. Dan, Dr. Dennis reviewed my charts and started me on the ABS. system. The remarkable results left me pain free, thus allowing me to move ways I couldn't for 2 years. I would highly recommend Olson Bros. for your injury or ailment, they are great Doctors. If I didn't come here, I would had to go under the knife.

- I started my treatments/adjustments a year ago. I was amazed at how quickly Dr. Dan was able to pinpoint my mobility issues. The problems were related to a whiplash injury sustained several years previous. Within four months of starting, my severe symptoms were completely resolved.
- We recently remodeled our home and I took on quite a bit of the work. I am absolutely sure that, had I not gotten my back issues resolved, that I could not have completed the work doing ceramic tiling, painting, and staining of the trim.
- I was a skeptic prior to meeting Dr. Dan Dennis but I am now a big believer in Chiropractic care. It's had a huge impact on my wellness!

When I started coming to Olson Bros Chiropractic, I was unable to turn my head more than a couple of inches, and even that was with pain. Sitting was painful, and standing back up was difficult. My knees and hips hurt when I walked. I felt like I was 40 years older than I am. Even worse, I was afraid that I was becoming very disabled.

Drs Dan and Dennis have made adjustments that restored my ability to turn my head, sit down, stand up, and walk. I rarely have any pain, and when I do, I know how to correct my posture to relieve the pain. I have regained flexibility. I can pick up my grandkids without being in pain the next day. I walk for exercise, and routinely walk six miles per day.

In short, Olson Bros Chiropractic has given me my life back.

I love Olson Bros Chiropractic.

Before seeing Dr. Olson I couldn't sleep all night because of my back pain. Now I sleep all night and can do house work without resting my back. My back is more flexible. I am so happy I found the Doctors.

## ~~NO~~ SUCCESS STORY

I have been coming to Mr Don + Dr Dennis for about three weeks now and there has been great improvement in my posture and energy level.

I am noticing great improvement with my dropped foot syndrome also. I have <sup>improved</sup> movement with the toes and ankle on my right side. It's only been three weeks and I am excited to see what results there will be at the end of two months or more.

A car accident damaged my left (sciatic) sp, nerve and that is what brought me to Mr. Don + Dennis.

**Customer Testimonial:**

Before I met Dr. Dan and Dr. Dennis, I finished a five mile race 2<sup>nd</sup> last in my age group. With their help, I was able to finish my latest race in 6,085<sup>th</sup> place. Thanks gentlemen, for the dramatic improvements in my performance!!

Sincerely,

*Ryan Roder* Bib #3964

And, by the way, no back or leg pain to speak of.  
Thanks for getting me to the starting (and finish) line!

## SUCCESS STORY

In March my daughter asked my husband and I to go to the Minneapolis camping show. After we were there for several hours, we came across a massage booth. We stoped at the booth for a free massage. That is how I found out about OLSON BROS. CHIROPRACTIC.

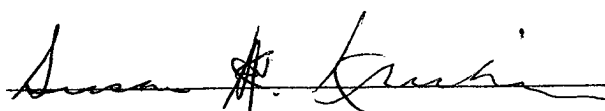

For several weeks my left shoulder was hurting, my right knee was hurting, my lower back was hurting, and my neck was hurting. Also, about 5 years ago, I had carpel tunnel surgery in both of my wrists. For years my wrists had still been bothering me with different movements since the surgery was done. I also had pain in my wrists in the evening that often required the use of wrist braces.

After a few weeks of therapy I began to notice my shoulder was not hurting, my knee was not hurting. All of a sudden I realized that my back and neck also were feeling much better too

Last week I was cleaning my bedroom when I saw my wrist braces. I then realized I had not worn them for months so I put them away. My wrists do not hurt any more either.

Thank you for a new pain free life.
